The Falcon

Known as "The Falcon", this property features modern architecture along the lines of Frank Lloyd Wright, and was designed to replicate a soaring bird in flight. With fantastic views from almost every room in this home, "The Falcon", is very privately situated from the road on just over an acre of land. Built all on 1 level - once inside, the interior spaces soar to cathedral ceilings in the living room, with the two main front picture windows giving you a bird's eye view of the surrounding area including majestic ocean, island, city and harbor views. From the outside, a circular staircase takes you up to the deck above which wraps around the main living room area, showcasing the amazing views and the uniqueness of the home's design. Sunrise to sunset views complete with twinkling evening lights and striking modern architecture, make this a very special property.
